# BACKGROUND

Situated on the gentle slopes of Mount Cameroon in Buea, the city of excellence, Biaka is a citadel of learning to reckon with. It provides a conducive and enabling environment for learning, with the best of professional teaching staff.

St. Francis School of Nursing and Midwifery was opened in 1998 as a training school for nurses and in the same year, Dr. Lawrence Francis Tonye Biaka was awarded a Fellowship by the Royal College of Obstetricians and Gynaecologists of England. The growing complex saw continuous growth and expansion with the opening of St. Francis Higher Institute of Nursing and Midwifery in 2007 and St. Francis School of Health Sciences in 2010.

The St. Francis Schools were upgraded by Ministerial circular No: 1601806/L/MINESUP/DDES/ESUP/SDA/OPC of February 26th, 2016, to BIAKA UNIVERSITY INSTITUTE OF BUEA (BUIB).

Today, BUIB runs three schools;

- School of Health Sciences (her mother entity)
- School of Management Sciences
- School of Education

Our courses run from HND to Bachelors, Top-up programmes and Masters programmes.

**MOTTO:** Knowledge and Service to Humanity.

**SLOGAN:** “The Audacity to Be Different”

### ***OUR VISION***

Our vision is that of a world where men and women can pursue academics, research and professional excellence in a peaceful environment that upholds our cultural diversity and heritage.

### ***OUR MISSION***

- Empower individuals to achieve maximum capacity through the provision of quality education at all levels.
- Equip students with specific professional, entrepreneurial and technological skills needed to meet the challenges of the world and its changing needs.
- Promote excellence in diversity, gender equality and create opportunities that would yield practical results and encourage self-reliance.
- Recognize the value of cultural diversity and pave the way for intercultural communication that would enhance human socio-economic development.
- Advance ethical and moral practice in educational, professional and civic life.

### ***OUR APPROACH***

- Our approach to teaching and learning recognizes the individual needs of the student within the broad context of the curriculum aims with a holistic focus on the learner.
- Our methods are based on enquiry, learning and other student centred approaches which enable learners to not only develop their cognitive and psychomotor skills, but also communication, problem solving, leadership and independent learning skills.
